

I'm writing to you in hopes that making my comments will help stop any changes to the No Call List. I know that I am one of many people that want to voice their opinions concerning this matter. I'm very upset that this may bring changes and allow those irritating calls back into my home. No bank or any other company should have any rights when it comes to using my phone line to do their business. I am the one that pays the bill each month, and I think they have a lot of nerve to think that they have any privileges to use my service. I do not want them in my home every evening, they are invading my privacy and if they accomplish the right to banish the no call list then I will have my phone turned off.

WHERE ARE MY RIGHTS !!

Thank you

Sandra Judkins (Indianapolis)
